Planetary Weather Systems: Mars, Venus, Earth

- **Mars**
  - Cold temperatures
  - Two seasons
  - Surface ice
  - Thin, CO₂ atmosphere
  - Poles made of CO₂ ice

- **Venus**
  - High temperatures
  - No seasons
  - Clouds made of sulfuric acid
  - Water vapor present in atmosphere

- **Earth**
  - Moderate temperatures
  - Four seasons
  - Air composed of nitrogen & oxygen
  - Surface water

- **Weather**
  - Clouds
  - Evaporation & condensation processes
